

POSTMASTERS TO SEE PARCEL POST EXHIBIT

Prepared to Prepare Instructive Feature
for Convention Here Next
Month.

NEWMAN TO WELCOME GUESTS

A parcel post exhibit of instructive value to postmasters and public will be the central feature of the convention of postmasters from North and South Carolina, Virginia, Maryland, and Delaware, which is to be held in Washington October 6 and 7.

Fifty examples of properly packed parcel post shipments, prepared under the direction of Postmaster Otto Fraenger, will show the safest and best ways of packing farm produce for shipment. Postmasters will be urged to refuse all produce not properly packed.

The convention will meet in the auditorium of the National Museum and will be welcomed by Commissioner Newman. The sessions of October 6, which is to be parcel post day, will be open to the public. These sessions will be of special interest to Washington housekeepers, especially those interested in direct marketing with producers through the parcel post.

SHIPPING BILL DOOMED TO FAILURE IN HOUSE

Democratic Revolt on Proposal to
Buy Vessels Means Death
of Measure.

The administration's bill for the authorization of a shipping corporation of \$20,000,000 capital, of which the United States government shall own and hold 51 per cent of the stock, probably is doomed to failure in the House.

Not in all the eighteen months since the Democratic party came into full power in the government has there been so much opposition to a government-owned shipping corporation as there is now. The opposition is not only in the House, but in the Senate, and in the House, it is not only in the Democratic party, but in the Republican party.

The Democratic opposition is by no means confined to any one section of the United States. New York furnishes a considerable quota of the opposition, but so does Wisconsin and Ohio. Texas lines up an opposition of practically its sole delegation in the House, only Representative Hardy is a known supporter of the bill, and not even he is confident of Representative Hensley's support.

Representative Burke, of Wisconsin, who voted for a favorable report on the bill in the Senate, but who is now a member of the House, is one of the few Democrats who are in opposition to the bill.

"At the time the bill was before our committee it was brought out by a competent authority, so we thought, that there was a dearth of American ships or a dearth of ships to carry American commodities and manufactured products. Now we learn that the trans-oceanic shipments of American wheat are larger than ever before. Why should the United States government spend \$20,000,000 in a time like this for ships that are already doing good work where they are?"

MUST HAVE HAD "SOME" TIME.

Buckley Says He Was on a Jak for
Quarter of Century.

Hundreds of Sons of Jonadab were made to feel like pikers in a by-gone day by one of their brethren, James Buckley, at a union smoker, all the while the pikers, head and tail, were in a hall at Fifth and G streets northwest. Mr. Buckley told them he was on one of those larks for twenty-four years and six months. The pikers listened intently, and everybody had to admit that was some jag.

Of course, jags are things of the past with all this "some" time. They must forever turn in their graves in religious ceremonies, to get into the order. Twenty-two new members walked up last night and planked down their pledges along with their applications. They say they have really worked old John Buckley's company. All were initiated during the grape-jug repast.

Other speakers were John Mangen, John R. Mahoney, J. H. Butler, E. W. Sanderson, C. H. B. Boyd, John Moore and James Lee. Mr. Lee related at the victory of the "drys" in Virginia.

CAN TRAVEL ON PASSPORTS.

Naturalized Alien-born May Have
Protection of United States.

The State Department yesterday denied reports emanating from London to the effect that no American passport could be issued to a naturalized citizen of the United States of German origin would be good hereafter in Great Britain, France, Russia, Serbia, or Belgium.

The extent to which an American passport held by a naturalized American citizen is recognized by his native land depends principally upon whether that country has concluded a treaty of naturalization with the United States. The United States has treaties of naturalization with the following European countries: Austria-Hungary, Belgium, Denmark, the German states, Great Britain, Norway, and Sweden.

NATIONS WORK FOR HOSPITALS.

U. S. and Spain Ask Belligerents to
Exempt Supplies.

Inquiry regarding reports that Spain and the United States are cooperating in measures to bring about peace in Europe disclosed here yesterday that the only discussions proceeding between Madrid and Washington are with regard to co-operation in obtaining the exemption of hospital supplies from liability to seizure by the belligerents.

Hospital supplies are already exempt from seizure as contraband, and the Spanish and American governments desire that such supplies in transit shall not be regulated by any military or naval commanders for their use, but shall be permitted to proceed to their destination.

DR. THEODORE N. GILL DEAD.

Funeral Services for Educator Will
Be Held Monday.

Funeral services for Dr. Theodore N. Gill, seventy-eight years old, connected with George Washington University since 1869, and at one time assistant librarian of Congress, who died yesterday at the home of his brother, Herbert R. Gill, 207 McKinley street northwest, will be held Monday at 2 o'clock in the chapel at Oak Hill Cemetery where burial will be made.

Dr. Gill was born in New York city, March 21, 1837. He received his education in that State, and coming to Washington, he became connected with George Washington University, then the Columbian University, from which he subsequently received the honorary degree of A. M., M. D., Ph. D. and L. L. D.

HIKERS TO STROLL SUNDAY.

John Boyle, Jr., will resume the leadership of the hikers tomorrow, an absence of several months. The hike will lead toward Burnt Mills via Indian Springs and Four Corners following up the Northwest branch. The walk will begin and end at the District line on Georgia avenue.

The women who have been hiking independently on Sunday mornings to the Adams Mill, which was before the Committee on Merchant Marine and Fisheries, said yesterday.

"At the time the bill was before our committee it was brought out by a competent authority, so we thought, that there was a dearth of American ships or a dearth of ships to carry American commodities and manufactured products. Now we learn that the trans-oceanic shipments of American wheat are larger than ever before. Why should the United States government spend \$20,000,000 in a time like this for ships that are already doing good work where they are?"
